

Cosmetic Ingredients

SEAWEED
& MARINE PLANT EXTRACTS

Red seaweed

CHONDRUS CRISPUS

Irish moss

Source of carrageenans, this red seaweed also contains fatty acids and mycosporine-like amino acids. It allows a good protection of the epidermis and participates in cell regeneration.

DRY FORMS

AGLIB003 : extraction cut

AGLIB004 : soap cut

AGLIB008 : T10

LIQUID FORM

MPBIOEXT111* : water glycerin

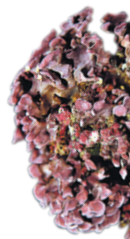

LITHOTHAMNIUM CALCAREUM

Lithothamnne

The high mineral content of lithothamnium (>95% of its dry weight), mainly calcium and magnesium, ensures remineralization of the body.

DRY FORM

AGLIT016 : fleurine powder

MASTOCARPUS STELLATA

Red lichen

Thanks to its richness in carrageenan and mycosporine-like amino acids, this red seaweed provides good skin protection. Its fatty acid content participates in cell regeneration.

DRY FORM

AGLIR003 : extraction cut

PORPHYRA UMBILICALIS

Nori

Rich in betacarotene and anti-oxidant, it protects against dehydration and helps cell regeneration. It contains fatty acids that participate in the regeneration of membrane phospholipids.

DRY FORMS

AGPOR002 : big flakes

AGPOR003 : little flakes

AGPOR005 : T60G

LIQUID FORM

AGBIOPOR001* : oily

PALMARIA PALMATA

Dulse

Thanks to its vitamin contents (A, B and C) and magnesium, it protects against dehydration, participates in cell metabolism and promotes healing. This red seaweed reinforces the skin's defences.

DRY FORMS

AGPAL003 : big flakes

AGPAL004 : little flakes

AGPAL006 : T60G

LIQUID FORM

MPEXT060 : water glycerin

Green seaweed

ULVA LACTUCA

Sea lettuce

This green macro seaweed contains iron and vitamin C. It strengthens the skin's defences, promotes healing and acts as an antioxidant.

DRY FORMS

AGULV003 : big flakes

AGULV004 : little flakes

LIQUID FORM

MPBIOEXT120* : water glycerin

COSMOS
ORGANIC

*COSMOS ORGANIC certified by Ecocert Greenlife according to the COSMOS standard available on: <http://COSMOS.ecocert.com>

NB: the information mentioned on this sheet is given for information only. AGRIMER does not carry out any test of effectiveness on the products. The person in charge of marketing freely defines the commercial argument of the product and provides evidence of the claimed effect (bibliographies, efficacy tests ...), in accordance with Article 20 of EC Regulation No. 1223/2009.

Brown seaweed

ASCOPHYLLUM NODOSUM

Knotted wrack

Thanks to polyphenols and polysaccharides, this brown seaweed has an activity of hydration of the upper layers of the epidermis known for its antioxidant properties.

DRY FORMS

AGASC003 : extraction cut

AGASC006 : T10

AGASC007 : T30G

AGASC009 : T60G

FUCUS VESICULOSUS

Bladderwrack

Thanks to its polysaccharides content, its richness in iodine and polyphenols, this seaweed has moisturizing, slimming properties and stimulate microcirculation.

DRY FORMS

AGFUC003 : cut 1 cm

AGFUC005 : cut 3-8 cm

AGFUC008 : T10

AGFUC009 : T30

AGFUC014 : T60G

AGFUC018 : micronized

AGFUS005 : spray dried

LIQUID FORMS

AGFUV011 : water glycolic

MPBIOEXT114 *: water glycerin

LAMINARIA DIGITATA

Kombu

Precious source of minerals and trace elements that activate cellular metabolism, its laminarin composition is known for its slimming and regenerating properties. Its polysaccharide content reinforces hydration.

DRY FORMS

AGLAM009/25 : T20

AGLAM040 : T60G

AGLAM012 : micronized

LIQUID FORMS

AGLAM024 : aqueous

AGLAM026 : aqueous debacterIALIZED

MPBIOEXT117 *: water glycerin

AGLAM046 : oily

UNDARIA PINNATIFIDA

Wakame

This brown seaweed contains vitamins which give it antioxidant and regenerating properties. It is involved in skin protection and prevents the appearance of wrinkles.

LIQUID FORM

MPEXT092 : water glycerin

Marine plants

CRITHMUM MARITIMUM

Sea fennel

The minerals of this shore plant provide it with antioxidant properties, participate in a good regeneration of the cells and nourish the vital cutaneous functions.

DRY FORMS

AGCRI002 : cut
AGCRI006 : T60G

LIQUID FORMS

AGBIOCRI006* : oily
MPEXT078 : water glycerin

Micro algae

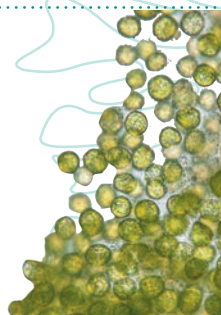

CHLORELLA VULGARIS

Chlorella

This super micro algae is involved in cell renewal and prevents skin aging. Rich in chlorophyll and amino acids, it stabilizes collagen and strengthens elastin fibers.

DRY FORM

AGCHL001 : powder

SPIRULINA PLATENSIS

Spirulina

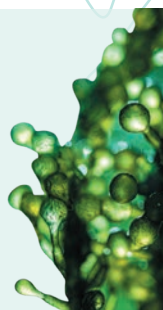

Spirulina is naturally rich in proteins and provitamin A, which are essential for the restructuring of the epidermis. Its molecular richness intervenes at different levels to soften, protect and visibly nourish the skin.

DRY FORM

AGSPI009 : powder

LIQUID FORMS

AGSPI004 : oily
MPEXT053 : water glycerin

COSMOS
ORGANIC

*COSMOS ORGANIC certified by Ecocert Greenlife according to the COSMOS standard available on: <http://COSMOS.ecocert.com>

NB: the information mentioned on this sheet is given for information only. AGRIMER does not carry out any test of effectiveness on the products. The person in charge of marketing freely defines the commercial argument of the product and provides evidence of the claimed effect (bibliographies, efficacy tests ...), in accordance with Article 20 of EC Regulation No. 1223/2009.

Sea water

Seawater contains 90 minerals and trace elements necessary for our balance, in proportions close to blood plasma, and therefore to our physiological needs. Harvested by AGRIMER, sea water is deodorized by precipitation of NaCl, which concentrate naturally the water in magnesium.

Magnesium is involved in many of the body's vital functions. It is essential for a good balance, helps to relax the muscles and encourages sleep.

MARINE MAGNESIUM

Marine magnesium in powder can be used as a dietary supplement to make up for deficiencies and fight against stress and fatigue.

DRY FORM

NEPF005 :
marine magnesium

MARINE MAGNESIUM CONCENTRATE

Liquid marine magnesium can be used in bath or massage products but also in food supplement ampoules.

LIQUID FORM

AGEDM012 :
magnesium concentrate

SPRAY DRIED SEA WATER

Spray-dried sea water is ideal for bathing (100% soluble) or cosmetic formulation. It can also be used as a nutritional supplement in capsules, tablets or in the composition of energy drinks.

DRY FORM

AGEDM014 : spray dried
sea water

Exclusive patented actives

THALISOURCE

Derived from the seaweed *Laminaria digitata*, its composition of sodium alginate depolymerized in oligosaccharides offers vitalizing properties and objective hydration.

DRY FORM

MPACT117 : thalisource powder

RESEARCH PROGRAM : AQUACTIFS

In partnership with the **CNRS of Roscoff** and supported by the «**Pôle Mer Bretagne**» competitiveness cluster, AGRIMER is leading research programs for :

- **Identify** unexploited varieties of seaweed with interesting properties in cosmetology.
- **Develop** new extraction techniques based on green chemistry.
- **Explore** macro-algae cultivation technologies.

CYTOPLASMA OF CALLIBLEPHARIS JUBATA

Its molecular richness in floridoside and taurine ensures optimal hydration and effective cellular protection*.

➔ * + **70% HSP production**

LIQUID FORM

MPACT175 : cytoplasm

POLYMARINES OF CALLIBLEPHARIS JUBATA

Moisturizing and softening thanks to its richness in galactans, its floridene starch content ensures anti-inflammatory* and tissue restructuring** functions.

- ➔ * - **74% of interleukine 6 production**
- ➔ ** + **72% increase of collagen synthesis**

LIQUID FORM

MPACT176 : polymarines

BE INSPIRED BY MARINE RESSOURCES INNOVATE BY THE SCIENCE

Leader in the harvesting and valorization of marine resources, AGRIMER is distributed in more than 20 countries.

Since its creation, AGRIMER has specialized in the processing of seaweed, marine plants and sea water. AGRIMER guarantees the traceability and quality of its products, from raw materials to finished products. Committed to environmental protection, AGRIMER is particularly active in preserving the quality, diversity and sustainability of this marine resource.

EXPERT IN MARINE COSMETICS FOR OVER 30 YEARS, AGRIMER CREATES, PRODUCES & DISTRIBUTES :

- **Marine ingredients:** functional marine extracts and patented active ingredients.
- **Finished products:** cosmetic development with standard or customized products.

SAVOIR-FAIRE OF EXCELLENCE

LABELLED as a Living Heritage Company or « **Entreprise du Patrimoine Vivant** » by decision of The French Ministry of Economy thanks to its unique know-how in the valorization of Breton seaweed.

MADE IN FRANCE

7500 M² PRODUCTION UNIT
NEAR THE IROISE SEA,
HARVESTING AREA.

3 SPECIALIZED LABORATORIES
